

# DELIRIUM'S DAWN

"Hard-hitting, neck-breaking riffs and melancholy, memorable melodies": The songs of the Munich metal combo **DELIRIUM'S DAWN** are described in this way or something like that. Since 2005 the guys have been an insider tip in the local scene and offer their audience a varied stage show that takes everyone's socks off.

After countless appearances, the guys from **DELIRIUM'S DAWN** know how to heat people up, as they can look back on gigs with greats of the metal scene like Van Drunen or Obscura.

**DELIRIUM'S DAWN** are primarily characterized by their independent sound. There is no recipe for this, but influences from the areas of Thrash-, Death-, Melodic Death-Metal and Metalcore can be heard, so you won't be bored for a second.

This can be heard on their current album "Horizons". The fourth long player was recorded in spring 2020 and hit the shelves later that same year.

The website [hardharderheavy.de](https://hardharderheavy.de) praised:

"(...) this sound literally blows you out of your feet. This is followed by a double bass drum salvo after the other. On top of that there are excellently played riffs"

Powerplay Magazine: "They Hack and slash through this release like the seasoned pros they are."

Metal Head Community Magazine: "Powerful Dynamics, stimulating Ideas and a modern approach..."

**DELIRIUM'S DAWN** are convincing and show again and again from appearance to appearance that they won't run out of breath anytime soon.
